6. What will you do if you find a small bottle of kerosene oil lying unattended in the LPG godown?
- Inform the distributor about it.
  - Keep the bottle along with the empty cylinders
  - Dispose of the bottle in the godown's dustbin
  - Let the bottle be there because a small amount of kerosene cannot cause any harm
7. What should be the maximum length of a rubber hose in a domestic LPG cylinder?
- 0.5 metres
  - 1.5 metres
  - 2 metres
  - 2.5 metres
8. What will you do if you find that the O-Ring of a cylinder is faulty?
- Replace it with a new one
  - Take out the faulty O-Ring and install the cylinder without it
  - Dispose of the cylinder and install a new one
  - Inform the Go-down about the faulty ring
9. When should you open the seal of an LPG cylinder?
- In front of the customer, just before the installation
  - Immediately after unloading the cylinder from the vehicle
  - Immediately after collecting the cylinder from the godown
  - Leave the seal on cylinder, and let the customer remove it by their own
10. Which of the given tips about using an LPG cylinder are correct?
- The rubber tube should be kept covered with a cotton cloth to avoid any leakage
  - Gas stoves should not be kept on the floor where an LPG cylinder is in use
  - The gas stove should be installed right in front of a window to ensure proper ventilation
  - The LPG cylinder should be installed in a pit/cabinet below the ground level

## MOCK TEST PAPER
